

## The Time Machine

### Chapter 10

1. What conclusions did the Time Traveller come to about the world he was visiting while he stood on the hilltop?
2. What happened to human intellect?
3. What does the Time Traveller mean when he says “There is no intelligence where there is no change and no need of change.”
4. How did things shape themselves to the Time Traveller before he left the time period?
5. What did the Time Traveller discover when he got to the white sphinx?
6. What were the Morlocks planning? How successful were they?
7. What happens to the Time Traveller at the end of the chapter?
